There are some cases where the game will only allow certain actions. The icons for actions that Link cannot perform are black and white or not displayed.

Control Stick

Use this mainly to move Link.

Walk/Run

Link walks or runs depending on how far you move the Control Stick. If you're in a dangerous area, move the Control Stick slightly so that Link walks slowly. Hold the L Button while walking to face forward.

Jump/Climb

To jump gaps or climb uneven ground, move the Control Stick in that direction to make Link automatically jump (or climb). Link may not be able to jump or climb if the distance is too great.

Swim

Move the Control Stick in the direction you want to swim.

NAVI AND L-TARGETING

Navi is Link's guardian fairy. She helps and supports Link during his adventure and gives helpful hints such as enemy weaknesses. If Navi calls you during the game, press UP on the C Stick to see what she has to say.

When Link gets close to an enemy or object that Navi can help with, she flies in that direction. That enemy or object has a triangle mark next to it. If you press the L Button, Link looks in Navi's direction, and the enemy or object is surrounded by the Focus Cursor. This is called L-Targeting. When you use L-Targeting, the Navi icon appears in the top-right corner of the screen. Press UP on the C Stick to read Navi's advice.

When using L-Targeting on people or signs, the Navi icon does not flash. Instead, the SPEAK or CHECK commands appear.

Deku Stick (Young Link)

Deku Sticks work like a sword, but are much weaker. They break very easily. Deku Sticks can also work as torches. Find them after defeating enemies or purchase them in stores.

Fairy Slingshot (Young Link)

Use the Slingshot to shoot enemies or objects that are far away. Tilt and hold the C Stick to change the view to behind Link's hands. Aim with the Control Stick and release the C Stick to shoot. If you use L-targeting before shooting, your accuracy will increase greatly. If you just tilt and hold the C Stick, you can aim the Slingshot without shooting it. Collect Deku Seeds to refill your ammunition.

Ocarina of Time

Play the Ocarina at certain times and special things may happen. With the Ocarina, you can also warp to other places (see page 27).

Fairy Ocarina

Until you get the Ocarina of Time, you'll make music with this instrument.

Lens of Truth

See which walls are real and which are fake with the Lens of Truth. Using this item consumes magic.

Bomb

Damage enemies or blow up walls with the Bomb. Be careful not to get too close to the blast or you may get hurt. Bombs explode approximately four seconds after you pick them up (see page 11).

Bombchu

Pick up a Bombchu and set it at your feet. It will start running by itself. If it hits an object or runs for a while without hitting anything, it will explode. Once it starts running, you have no control over it.

As the adventure progresses, you can extend the length of your chain.

Megaton Hammer (Adult Link)

Move big blocks or activate a rusted switch with the Hammer. You can also use it as a weapon.

Somewhere in Hyrule are three Great Fairy Fountains. At the fountains, you can learn three different magic spells. When you meet a Great Fairy, the Magic Meter shows the remaining amount of Magic in the top-left corner of the screen. You need the correct number of Magic Points to use magic.

Farore's Wind

6 MP

Farore's Wind surrounds Link's body with a green light and the spot where you first use it will be set as a warp point. If you use the magic again at a different location, you will be able to warp back to the original warp point. Select "Dispel the Warp Point" to set a new warp point location.

Nayru's Love

12 MP

A blue light surrounds Link, protecting him from enemy harm. This love wears off after a short time.

Magic Power Recovery

To refill your Magic Meter, find Magic Jars by defeating enemies or looking under pots and bushes. You may also consume the green medicine that you buy in shops. If you want to quit during your adventure, be sure to save your progress first. Turn the power OFF when you are done.

If you save and quit during your adventure, the game saves the number of hearts in your Life Energy.

- Do NOT turn the power OFF while saving. This may cause saved data to disappear.

TRAVELLING THROUGH TIME

This page offers some basic tips that will help you as you travel back and forth between Link's childhood and adulthood. Characters in the game will offer even more hints, so listen to their words!

While you are playing the game, you discover that Link has aged seven years since his adventure began. During that seven-year span, the atmosphere of Hyrule has changed dramatically. Things Link does in his childhood affect him as an adult.

In the village of Hyrule, if you do something at the Temple of Time, you will be able to travel between these two time periods. This time travel is necessary for you to progress through your adventure.

Temple of Time

Adulthood

Be sure to visit the people you met while young. You never know what might have happened to them in seven years.

ATTENTION: This Bonus Disc (The Legend of Zelda: Ocarina of Time / Master Quest) is not compatible with some older televisions.

To use the Bonus Disc:

- 1) Ensure the Bonus Disc is placed printed side up in your Nintendo GameCube and the Disc Cover is closed (see the Nintendo GameCube Instruction Booklet for more details).
- 2) Press the Power Button to turn the power ON.
- 3) The Nintendo GameCube logo screen should appear on your television screen.
- 4) A few moments later, the Bonus Disc Game-Select screen should appear.
